Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Art Unit: 1713

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

2. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

3. Claim 1 is rejected under 35 U.S.C. 102(b or e) as being clearly anticipated by either Yamamoto et al. US 5,250,627 or Rau et al. US 6,187,867.

Each of these patents extensively discloses compositions comprising carboxylated acrylonitrile-butadiene rubbers, see Yamamoto et al. at col. 3, lines 29+, and Rau et al. at col. 2, lines 10+. In view of this disclosure the claim is seen to be clearly anticipated.

4. Claims 2, 3, 7 and 8 rejected under 35 U.S.C. 103(a) as being unpatentable over either Yamamoto et al. US 5,250,627 or Rau et al. US 6,187,867.

5. These patents further show the incorporation of carboxylated ethylene polymers at col. 3, lines 1+ of Rau and col. 3, lines 27+ in Yamamoto et al. The suggestion to

Art Unit: 1713

incorporate carbon black is found in Rau at col. 4, line 9 and Yamamoto at col. 4 lines

34+. In view of this disclosure the claims are rendered prima facie obvious.

6. Claims 7 and 8 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

7. The language "the polyolefin" has no antecedent.

A handwritten signature in black ink, appearing to read "P. Mulcahy", with a long vertical line extending downwards from the end of the signature.
